Subject: Agenda Items for next P&R Meeting

Brian – Mike Taylor called and would like the following items on the Park & Rec agenda.

Update on Friendship Trail section Oneida Street to Lake Park

Update on electrical upgrade at East Diamond Park Shelter

Deb

PARK BOARD

Mike plans to remove the outlets on the pole that get tampered with from time to time and put a 50 amp plug there that can be secured. Then upon a reservation request we will provide a corded panel to plug into this providing several outlets. He will look to shorten up the cord on one of the existing panels that are used at many of our events, downtown and at Jefferson.

Mike is planning on taking care of this within the next couple of weeks.

Thanks,
 Adam

Could you send me a short summary of what will be done and approximately when. I know Mike B. had an idea of pulling power from the restroom?

Also, please have someone turn off the sledding hill lights at Clovis. Thanks
